

Aluminum .040

EuraZinc is a unique self-weathering zinc coating on aluminum. Real zinc-particles in the topcoat allow the surface to weather over time from an initial light grey finish to a dark and natural weathered zinc finish.

ZINC RE-INVENTED

EURAZINC - WEATHERING ZINC FINISHES

EuraZinc offers you all the benefits and the favorable price of pre-coated aluminum. Fully exploit the cladding versatility and flexibility and save over 60% of weight in comparison to real zinc. EuraZinc enables a weathering zinc finish on exterior cladding systems like standing seam, wall panel cassettes, sandwich panels or roll-formed aluminum profiles.

The colors shown are for sample purposes only. This is a unique appearance coating that needs to be seen. Please request an actual color sample from our color experts.

Solar Reflectance	Thermal Emittance	SRI (hc=5 W.m-2.K-1)	SRI (hc=12 W.m-2.K-1)	SRI (hc=30 W.m-2.K-1)
0.20	0.69	1	8	14

The Solar Reflectance Index was calculated for the submitted samples according to ASTM E 1980.
